

## Stellenausschreibung – Job posting

An der Technischen Universität Wien gelangt nachstehende Stelle zur Besetzung:

Die TU Wien strebt eine Erhöhung des Frauenanteils insbesondere in Leitungsfunktionen an und fordert daher qualifizierte Frauen ausdrücklich zur Bewerbung auf. Bei gleicher Qualifikation werden Frauen vorrangig aufgenommen, sofern nicht in der Person eines gleich qualifizierten Mitbewerbers liegende Gründe überwiegen. Wir sind bemüht, Menschen mit Behinderung mit entsprechender Qualifikation einzustellen und fordern daher ausdrücklich zur Bewerbung auf. Bei Rückfragen wenden Sie sich bitte an die Behindertenvertrauensperson der TU Wien, Herrn Gerhard Neustätter.

The **Department of Research Information Systems** in cooperation with the **Data Science Research Unit, Institute of Information Systems Engineering**, is offering a position as student staff member in research/administration for 20 hours/week. Expected start: January 2025. This position is limited to expected 8 months, but no longer than the completion of a master's or diploma degree.

### Tasks:

- The TU Wien is in the process of improving its ability to leverage data for insights into its performance and embedding in the international research environment. A part of this data includes documents in various formats, as well as structured datasets, all including information on relationships between institutions and other relevant metadata. The successful candidate will contribute to this process by carrying out the following tasks:
  - Assisting in the Development and evaluation of approaches to extract information from structured and unstructured data
  - Support in the analysis of the extracted data to obtain relevant insights
  - Assisting in the regular consultation with and presentation of results to stakeholders
  - Support of the development of prototypes demonstrating the most successful approaches
    - The development can include, but is not limited to, the use Large Language Models and Natural Language Processing technologies and techniques
- It is possible to carry out research toward a master's thesis as part of this employment

### Your profile:

- Enrolled in a relevant study program in the field of Informatics, Business Informatics or Data Science; No completed Master- or Diplom Study in these fields
- Very good programming knowledge
- Team- and communication skills
- Independent and precise work
- Networked thinking and system perspective

### We offer:

- A wide variety and exciting range of tasks in a collegial team
- Continuing personal and professional education and flexible working hours
- A range of attractive social benefits (see [Fringe-Benefit Catalogue of TU Wien](#))
- Central location of workplace as well as good accessibility (U1/U4 Karlsplatz)

Entry level salary is determined by the pay grade C of the Austrian collective agreement for university staff. This is a minimum of currently EUR 1,299.60/month gross, 14 times/year for 20 hours/week.

**We look forward to receiving your application until December 5, 2024 on our job platform: <https://jobs.tuwien.ac.at/Job/243069>**
